**stage I - Rabsztyn**

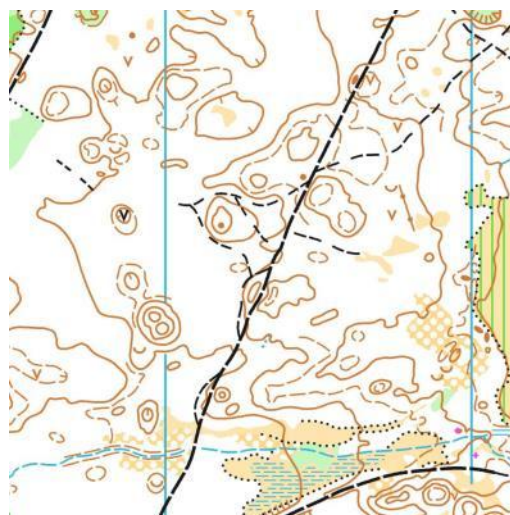

During first day we will recall Wawel Cup from 2010. Again, the competition center will be located on the Rabsztyn castle meadow. We offer exquisite atmosphere in cozy location, and in the forest the competition will be opened my middle distance run in rocky terrain with interesting wealth of subtle contour details.

**stage II- Olkusz Sztolnia**

During Wawel Cup 36. second stage we will face quite a different terrain that the one from stage I.

The terrain from previous year's Grand Prix Małopolska will be expanded by western part of the forest. It will allow us to held the long distance in highly interesting terrain!

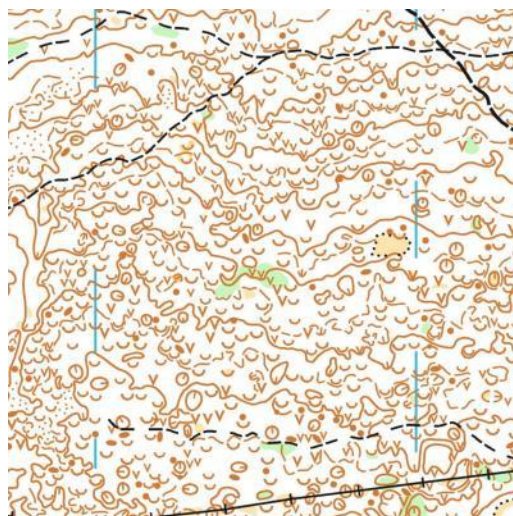

The outstanding element of second stage will be the old Olkusz drift. The forest will welcome you with wealth of subtle contour details, half-open terrains and for the dessert... a warm-up before stage III!

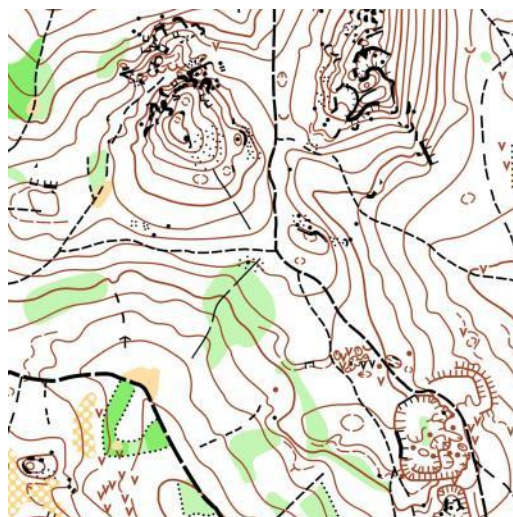

**stage III – Olkusz „pits”**

The third stage will satisfy every orienteering runner. The terrain is absolutely unique, the map scale is 1:4000 and the point in almost each pit. The best recommendation is map's description attached on the right hand side. What is more, the courses will be prepared by the most recent medalist of European Championships! Watch out cause even the best runners may go crazy here!

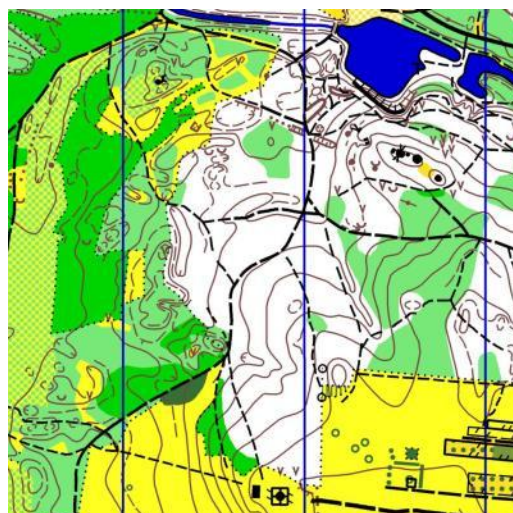

**stage IV - Jaroszewiec**

"As usual, Wawel Cup could not be held without Jura's rocky terrain. This year it will be exactly the same...." The part of last year's bulletin shows what is awaiting us in stage IV. Typical Jura terrain with quite a big number of stones, in addition: long courses with excellent run visibility. Something that Wawel Cup is already associated with!

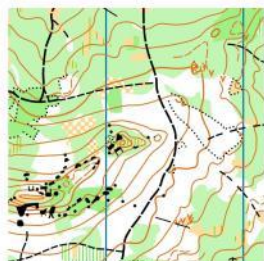

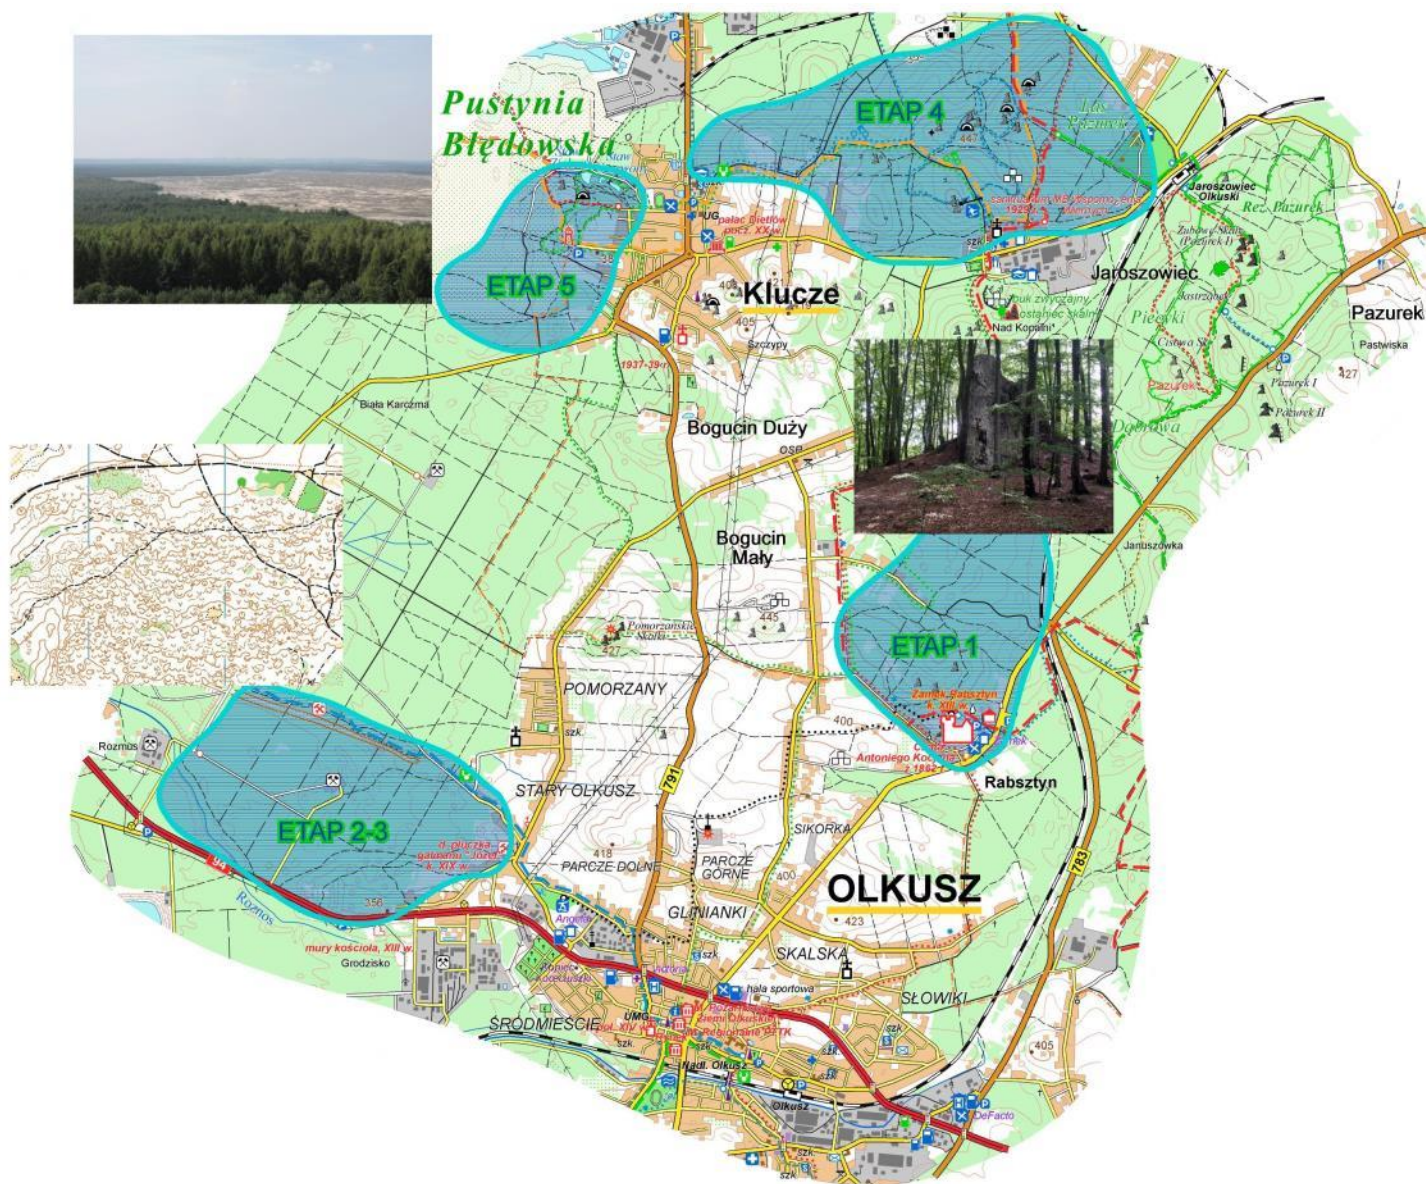

**stage V – Błędów Desert**

And for the dessert we have prepared something that you won't forget Wawel Cup easily. The competition center will be located on top of the mountain which will allow us to follow the competition on the course! Very interesting terrain, the only desert in Poland, brand new Jacek Morawski's map and... the end in picturesque scenery. You can't miss it!
